During the Renaissance, the baronial style became even more popular. This was due in part to the influence of Italian architects, who brought their own love of luxury and grandeur to England. Renaissance baronial bedrooms were typically even more elaborate than their medieval counterparts, with rich fabrics, carved furniture, and painted ceilings.

The baronial style continued to be popular throughout the centuries. In the 19th century, it was revived by the Victorian era, which saw a renewed interest in all things medieval. Victorian baronial bedrooms were typically dark and heavy, with a focus on comfort and opulence.
