

Decolonising Indigenous Child Welfare: Comparative Perspectives

A Must-Read for Understanding Systemic Injustices

This groundbreaking book provides a comprehensive and deeply researched examination of the systemic injustices and ongoing impacts of colonization on Indigenous child welfare systems. It offers a critical analysis of policies and practices from multiple countries, presenting valuable insights and recommendations for transformative change.

Drawing on the expertise of leading scholars, practitioners, and Indigenous advocates, the book explores the historical and contemporary factors that have contributed to the over-representation of Indigenous children in child welfare systems worldwide. It highlights the ways in which colonization has shaped child welfare policies and practices, leading to discriminatory outcomes for Indigenous families and communities.

Through a comparative analysis of case studies from Canada, Australia, New Zealand, and the United States, the book reveals the commonalities and differences in the challenges faced by Indigenous child welfare systems. It identifies the systemic barriers that prevent Indigenous families from accessing appropriate and culturally responsive services, and it exposes the ongoing legacy of trauma and intergenerational harm caused by colonialism.

Decolonising Indigenous Child Welfare is an essential read for anyone who works in the field of child protection, social work, or Indigenous policy. It is also a valuable resource for students, researchers, and advocates who are committed to understanding and addressing the systemic injustices that have long plagued Indigenous child welfare systems.

Key Features:

- A comprehensive overview of the history and current state of Indigenous child welfare in multiple countries
- A critical analysis of the systemic injustices and ongoing impacts of colonization
- Comparative case studies that highlight the commonalities and differences in challenges faced by Indigenous child welfare systems
- Valuable insights and recommendations for transformative change
- A must-read for anyone who works in the field of child protection, social work, or Indigenous policy

About the Authors

Author 1

Author 1 is a leading scholar in the field of Indigenous child welfare. They have published extensively on the history, policy, and practice of child protection in Indigenous communities.

Author 2

Author 2 is a practicing social worker with over 20 years of experience in Indigenous child welfare. They have worked directly with Indigenous families and communities to develop culturally responsive child protection services.

Author 3

Author 3 is an Indigenous advocate who has been working to improve the lives of Indigenous children and families for over 30 years. They have served on numerous boards and committees, and they are a strong voice for Indigenous rights.
