This book examines the dynamic relationship between European law and national laws, focusing on the concept of 'dialogue of mutual responsiveness.' This concept refers to the idea that European law and national laws are in a constant state of interaction and mutual influence, with each system influencing the development and interpretation of the other.

The book brings together leading scholars from across Europe to explore the different dimensions of this dialogue, from its theoretical foundations to its practical implications. The chapters cover a wide range of topics, including:

- The historical development of the dialogue of mutual responsiveness

- The theoretical foundations of the dialogue of mutual responsiveness
- The practical implications of the dialogue of mutual responsiveness for different areas of law, such as constitutional law, administrative law, and private law
- The challenges and opportunities for the dialogue of mutual responsiveness in the future

This book is essential reading for anyone interested in the relationship between European law and national laws. It provides a comprehensive and up-to-date analysis of the dialogue of mutual responsiveness, and it offers valuable insights into the future of European law.
