

Equitable Compensation and Disgorgement of Profit: A Comprehensive Guide to the Hart Studies in Private Law

Equitable compensation and disgorgement of profit are two important remedies in private law. Equitable compensation aims to restore the victim of a wrong to the position they would have been in had the wrong not occurred. Disgorgement of profit, on the other hand, aims to deprive the wrongdoer of any profits they have made from their wrongdoing.

The Hart Studies in Private Law are a series of books that provide a comprehensive overview of the law of remedies. The studies were written by a team of leading scholars under the direction of Professor William Wadlington. The studies cover a wide range of topics, including equitable compensation and disgorgement of profit.

Equitable Compensation

Equitable compensation is a type of monetary relief that is awarded by a court to restore the victim of a wrong to the position they would have been in had the wrong not occurred. Equitable compensation is distinct from legal damages, which are awarded to compensate the victim for the actual losses they have suffered.

Equitable compensation is typically awarded in cases where legal damages are not an adequate remedy. For example, equitable compensation may be awarded in cases where the victim has lost a unique or irreplaceable item, or where the victim has suffered emotional distress.

Disgorgement of Profit

Disgorgement of profit is a type of equitable relief that is awarded by a court to deprive the wrongdoer of any profits they have made from their wrongdoing. Disgorgement of profit is typically awarded in cases where the wrongdoer has engaged in fraudulent or deceptive conduct.

Disgorgement of profit is a powerful remedy that can be used to deter wrongdoing and to restore the victim of a wrong to the position they would have been in had the wrong not occurred.

The Hart Studies on Equitable Compensation and Disgorgement of Profit

The Hart Studies in Private Law provide a comprehensive overview of the law of equitable compensation and disgorgement of profit. The studies cover a wide range of topics, including the following:
