

Shores of Politics, Horizons of Justice: Space, Materiality, and the Normative

An Exploration of the Interconnections Between Space, Power, and Justice

In an era marked by profound social and environmental transformations, the concepts of space, materiality, and justice have taken on new urgency. The book "Shores of Politics, Horizons of Justice" delves into these interconnected realms, offering a nuanced and comprehensive analysis of their profound impact on our understanding of power, politics, and the pursuit of a just society.

Authored by a distinguished collective of scholars, "Shores of Politics, Horizons of Justice" draws inspiration from diverse theoretical frameworks, including spatial theory, critical geography, feminist theory, and political ecology. It presents a multifaceted examination of how space and materiality shape political processes, influence social relations, and mediate our experience of justice and injustice.

Spatial Politics and the Geographies of Power

The book's first section explores the political dimensions of space, delving into how power relations are inscribed in the physical and social landscapes we inhabit. It examines the ways in which spatial configurations

reinforce and perpetuate inequalities, shaping access to resources, opportunities, and voice. By analyzing the geographies of power, the authors uncover the hidden mechanisms that perpetuate social and economic hierarchies.

Materiality and the Politics of Exclusion

Moving beyond the purely spatial, "Shores of Politics, Horizons of Justice" explores the materiality of politics, highlighting the ways in which objects, infrastructure, and environments mediate political processes and shape our experiences of justice and injustice. The book examines how materiality can serve as a tool of exclusion and oppression, creating barriers to participation and denying access to basic rights and entitlements.

Horizons of Justice: Rethinking Normative Frameworks

The third section of the book shifts the focus to the normative dimensions of space and materiality, arguing that traditional understandings of justice may be inadequate in addressing the complex challenges posed by contemporary social and environmental transformations. The authors propose alternative frameworks for conceptualizing justice that are sensitive to spatial and material realities, offering a more nuanced and inclusive approach to social and political transformation.

Critical Perspectives on Power, Space, and Justice

"Shores of Politics, Horizons of Justice" is a cutting-edge contribution to the interdisciplinary fields of political geography, sociology, and political theory. It presents a wealth of critical perspectives on the interconnections between space, power, and justice, challenging conventional understandings and opening up new avenues for research and activism.

Key Features of the Book:

- In-depth analysis of the spatial and material dimensions of politics
- Contributions from leading scholars in political geography, sociology, and political theory
- Exploration of the geographies of power, the politics of exclusion, and horizons of justice
- Engaging case studies and empirical research from around the world
- Provocative arguments and innovative frameworks for reconceptualizing justice

Target Audience:

"Shores of Politics, Horizons of Justice" is essential reading for scholars and students in:

- Political geography
- Sociology
- Political theory
- Environmental studies
- Urban planning
- Social justice advocacy

About the Editors:

Brenna Bhandar is Associate Professor of Political Science at McGill University.

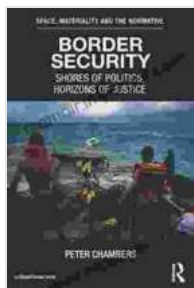

Gurminder K. Bhambra is Professor of Sociology at the University of Cambridge.

Jakeet Singh is Associate Professor of Sociology at the University of California, Berkeley.
