Covering a wide range of topics, from classical film theory to contemporary digital media, **The Anthem Handbook of Screen Theory** is an essential resource for students and scholars of film, media studies, and cultural studies. This handbook is also a valuable resource for anyone interested in the role of screen media in our culture.

What is Screen Theory?

Screen theory is the study of the ways in which we make meaning from images and sounds that are projected onto a screen. This includes film, television, video games, and other forms of screen media. Screen theory is a relatively new field of study, but it has quickly become one of the most important lenses through which we can understand the contemporary world.

Screen theory is interdisciplinary field, drawing on insights from a wide range of disciplines, including film studies, media studies, cultural studies, and visual culture. This handbook brings together leading scholars from all of these disciplines to provide a comprehensive overview of the field of screen theory.

Major Topics Covered in The Anthem Handbook of Screen Theory

- Classical film theory

- Contemporary film theory

- Television theory

- Video game theory
