The book is divided into three parts.

1. The first part provides a historical overview of the industry, from the discovery of oil in Iran in 1908 to the present day.
2. The second part discusses the legal and regulatory framework for the industry, including the role of the National Iranian Oil Company (NIOC).
3. The third part examines the challenges and opportunities facing the industry, including the impact of sanctions, the need for investment,

and the development of new technologies.

The book is written by a team of experts from the Iranian oil and gas industry, and it provides a unique insight into one of the most important industries in the world.
